Dr. George L. Johnson
1336 W Street, N. W.
Washington 9, D. C.

Dear Dr. Johnson:

Your letter was received at my office while I was out of town, due partly to illness.

With reference to your request for descriptive memoranda for newspaper releases in connection with the Association, I submit the following:

Member, Medical Staff, Cook County, Michael Reese and Provident Hospitals.
Chairman, Division of Digestive Diseases, Provident Hospital.
Clinical Professor, Gastroenterology, Cook County Graduate School of Medicine.

Author and coordinator, "The Narcotic Clinics Plan", Illinois Department of Public Health.

Member of the Welfare Committee of the Mayor's Commission on Human Relations, City of Chicago.

Member, American College of Physicians and the Specialty Boards of Internal Medicine and Gastroenterology.

With reference to a picture or cut, Dr. Montague Cobb may have a cut which he used last year. If not, I am sure he has a photograph from which that cut was made. If you find that neither is available, please write me and I will try to locate one or the other here.

I am glad that plans are going along nicely and that your publicity for our Association meeting is getting under way. I suggest that a copy of your releases be sent to Mr. Claude Barnett of the Associated Negro Press, 3531 South Parkway, Chicago, Illinois.

Yours very truly,

Leonidas H. Berry, M.D.
