October 14, 1953

Rev. L. L. Berry
Board of Home and Foreign Missions
112 West 120th Street
New York 27, N. Y.

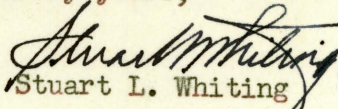

Dear Rev. Berry:

This is in reply to your letter of August 19, 1953 advising me that I was in error concerning the property in question. I have checked with the records in the map and zoning office and also in the City Treasurer's office and in both places they show three pieces of property in the name of John A. Berry. However, the zoning officer said that he was fairly certain that his records were in error because he had found several inconsistencies. On one assessment the acreage on the Butler farm road was listed as four acres and on another card was listed as seven acres.

I have been out to the land on the Butler farm road and fairly well determined, I believe, the location. The property begins approximately three hundred feet from the end of the paved road and fronts on that part of old Butler Farm road which has been abandoned.

If this property contains approximately seven acres, as the records indicate, I have a client who may be interested in it. One of the sororities at Hampton Institute is looking for a site for a summer camp project. This site might meet their requirements. Please give me some idea of the price that you will accept for the seven acre plot in question.

Sincerely yours,

Stuart L. Whiting
