Dr. Leonidas Berry  
5142 South Ellis Avenue  
Chicago, Illinois 60615

Dear Dr. Berry:

I read about your honor in the "Norfolk Journal and Guide" List, may I congratulate you on your new book, I Wouldn't Take Nothing For My Journey. I have ordered a copy from Mrs. Thomasine Prude, St John AME Church. Secondly, I am interested in your medical achievement because I need some information.

I am already seeing a specialist for ulcerative colitis. Medications I am taking include: Azulfidine, Centrax, <sup>off now</sup> and I have taken Valium for my nerves as well as — Cort-enema therapy.

I still have <sup>diarrhea</sup> ~~diarrhea~~ + bleeding.  
As a pioneer in the field of —  
gastro-intestinal-endoscopy, I  
know you would be unable  
to treat me unless I was there.

Nevertheless, if you have  
any literature, or <sup>(diet)</sup> menu concerning  
what I can eat to help  
alleviate my condition, please  
send the same COD or let  
me know the amount to —  
cover the cost.

I am a Christian and I  
have been in constant meditation.  
I trust God and believe I shall  
be healed but I certainly need  
the right key to unlock the mystery.

My first attack was after my  
father was killed in an automobile ~~accident~~  
+ my brother-in-law suddenly  
died of a heart attack age 57.

I am trying to cope with stressful  
situations, however, I still don't  
understand the complexity of what  
I have. I appreciate any suggestions  
you may have.

Sincerely,  
(Mrs.) Martha D. Dance
