1 Sept 1977

Dear Dr. Berry -

You will be getting many cards, letters and telegrams I want this to be in early and to be part of all these which will come to commend and thank you for your many years of exemplary and significant work in your profession and to the Church. You have been a source of encouragement to many even when your own hopes and desires for the Church have been thwarted or dashed to the ground. Your commitment has been a fine example to us all.

May you have many more years for active work blessed with good health, joy and peace.

Sincerely
Charles
