Dr. Leonidas Barry  
Cook County Graduate School  
Honora Street  
Chicago, Illinois

Dear Doctor Barry:

I thought I would just drop you a line. We recently finished our annual Hawaii Medical Association meeting, and after all these years Dr. Okazaki and I finally had some time together. Dr. Okazaki presented an excellent paper on Lipoproteins at the convention and it was very well received. I hope that he sends you a reprint.

We enjoyed reviewing our Gastroscopy course with you in 1948 and I hope some time to be able to get back and take some work in internal medicine. I do hope I can work out a course where you will be participating.

We have expected these past eleven years to see you here in the Islands but I guess you are like Okazaki and I, somewhat earthbound. What with children in college and so on, we don't stir very far from the home pasture.

Your old friend, Dr. T. Kutsunai, is not very well. He has been badly decompensated for the past several months. At times he is well enough to do a little work but he is having a rough time of it. His lovely daughter is back with him. She has recently graduated from Northwestern and is waiting to start her internship at the Los Angeles County Hospital. If you have a moment, I am sure that Kutsi would appreciate

Dr. Leonidas Barry

a short note from you as he is rather unhappy and impatient with his illness. As you recall, he is a very dear fellow and is held in the highest esteem by all of his here in Hilo.

I am asking the Hawaii Medical Association to send you the Journal which will carry Dr. Okazaki's paper.

With aloha and kindest regards, and with the hope that you have not abandoned the idea of a trip out here, I remain

Yours sincerely,

*W. N. Bergin*
