Dear Dr. <sup>Leonidas</sup> Berry:

Upon returning from a trip abroad, I found your letter of August 15, 1969. Unfortunately, I did not get to the meeting and, therefore, did not have an opportunity to review your application.

We are still making changes in the heart valve, but as soon as our final modifications have been incorporated, I shall send you one, autographed, as you requested.

Warm personal regards.

Yours sincerely,

Michael E. DeBakey, M. D.
