Dr. Donald S. Donner
Chuquicamata, Chile
South America

Dear Donald:

I have your letter of some time ago indicating your change of schedule with reference to coming to North America. I understand now that you will be attending the Radiological Society Meeting in Chicago from November 17th to 22nd. My gastroscopy clinic meets only once a week except when I am giving the course, and that will include Tuesday, the 19th of November, when the Radiological Society will be in session. I will be very pleased to have you visit the Cook County Clinic with me on that day, or any other morning during the Convention if I should happen to have private patients. You would have the opportunity to pass the gastroscope on Tuesday, the 19th. I will arrange also for you to see the newer instruments, including the fibroscopes and the Berry gastro-biopsyscope. Also, Mrs. Berry and I would like very much to have some friends in to meet you and Mrs. Donner probably on Friday night or Saturday night, November 22nd or 23rd. We sincerely hope that you will have no previous engagement on these dates. Unfortunately, I have attended so many medical meetings during this year, including three on the Pacific coast and one last June in Washington, that I had decided to pass up the meeting of the College of Gastroenterology convening in Washington, D. C. October 24th to 26th.

I am recalling that I may have a gastroscopy course which will overlap your period in Chicago. If this is true it would enhance your opportunity to get in on some gastroscopies. Before mailing this letter I will check with the graduate school and write a footnote.

Our love to you and Mrs. Donner. We are looking forward to seeing you in the not too distant future.

Sincerely yours,

Gastroscopy Course
Nov 4 thru 18th
