Dr. G. U. Jamison
610 Hazel Street
Texarkana, Texas

Dear Dr. Jamison:

Please forgive me for this long delay. I have been quite ill since before your letter was received. Obviously what you had in mind can not be considered now, however, I am much improved and am on a part time schedule.

I plan to give the gastroscopic course in March for two weeks. This class is always small, limited to five. At least fifty cases are seen. Any period less than that would not be satisfactory.

Please write the Cook County Graduate School, Wood and Harrison Streets, for a catalog.

I do remember you and remember having met your father. I hope you are fine.

With best wishes, I am

Yours very truly,

Leonidas H. Berry, M.D.
