

Lipson

April 11, 1943

Mr. Herbert Lipson
c/o Lipson Associates

Chicago, Illinois

Dear Mr. Lipson:

I am enclosing herewith a copy of the brochure which we presented before the Cook County Board several days ago. They seemed considerably interested and we are now to present the same program before the "blue ribbon" advisory committee to the County Board on County Hospital problems. Please note that this is offered by way of improving the total Chicago hospital problems which certainly include a long-range consideration of the problems at the Cook County Hospital.

I hope that you will note the long-range aspect of our proposal which has been added since we last talked and that you will see some virtue in this kind of approach. Let me know in writing or otherwise what you think of it.

Sincerest regards,

Leonidas H Berry , M.D.
