Dr. Henry Paul
Department of Medicine
Division of Gastroenterology
Martin Luther King General Hospital
12021 So. Wilmington
Los Angeles, California

Dear Dr. Paul:

It was certainly nice to see you again after a number of years and to observe that you are doing so well. I frankly had a little larceny in my heart with reference to possibly displacing you from the Los Angeles area to Chicago and Cook County. However, it was easy to see that you had recently embarked upon a great challenge and a new and enjoyable program. I congratulate you on upon the work you are doing there and the challenge that it offers.

You will recall that you promised to send me some information on your "outreach" community program with reference to patients especially the hypertensive and also some points on the problems as you see them there with reference to postgraduate opportunities of Black physicians in connection with the hospital. The progress you have made there so far is interesting. Please restate them in your correspondence and keep in touch with me. Hoping to hear from you soon, I remain,

Sincerely yours,

Leonidas H. Berry, M.D.
