

October 11, 1956

Dr. Louis L. Perkel  
Chairman  
Committee on Hospital Relationships  
American College of Gastroenterology  
33 West 60th Street  
New York 23, N. Y.

Dear Dr. Perkel:

I am sorry that I will be unable to attend the meeting of the Committee on Hospital Relationships. I will be in accord with any decisions made by the Committee.

We have established Residencies in Gastroenterology at the Cook County Hospital as of July 1956. We now have two Residents and there will be one to two places for Fellows who will train for three to six months periods. As far as I have been able to determine the University of Chicago offers the only other GI Residency in Chicago.

Sincerest regards and best wishes.

Yours very truly,

Leonidas H. Berry, M.D.
