Dear Doctor Berry:

The official program for the 1966 Clinical Congress is now in preparation. Would you please send along your photo and short biography for inclusion in the program. Since all program material must be delivered to our printer on January 12, it would be most appreciated if you could send these items to us at the earliest possible moment.

We would also like to receive the 100 word summary of your presentation as soon as convenient for you... I realize how busy you must be.

Sincerely,

Olive J. Bianco
