Dear Dr. Berry;

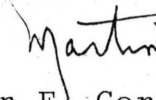

Once again, I would like to ask if you would take the time to tape a personalized impression of the personality of Dr. Rudolph Schindler and document many of the personal insights that you have had regarding the History of Endoscopy.

We would all benefit from your observations and impressions and since this "oral history" is being assembled from various parts of the country, we would sorely miss a tape from you.

Dr. Henning has indicated that he has communicated with you in the past as well.

With all best wishes.

Cordially,

Martin E. Gordon, M.D., F.A.C.P.  
Chairman, History of Endoscopy  
Committee
