John F. Morrissey, M.D., President
American Society for Gastrointestinal Endoscopy
Professor of Medicine, University Hospitals
1300 University Avenue
Madison, Wisconsin 53706

Dear John:

The receipt of your letter, dated October 28, 1976, was delayed because of my change of address. Please note the above for future correspondence. The delay in no way lessened my deep gratitude for its content.

The news of being selected for the Schindler Award is received with humility and thankfulness to my colleagues of many years standing, among whom is my much admired and good friend, John, our current President.

I have enjoyed my sojourn over the many years of work in the field of gastroenterology and, especially, gastrointestinal endoscopy. Through it all, I have been deeply inspired by students and colleagues, far and near.

I will await communication from you or the Committee regarding arrangements for the Toronto meeting.

I again wish to thank you for the transmission of the news of the selection by the Awards Committee and the Board of ASGE, and for your personal congratulations.

Very truly yours,

Leonidas H. Berry, M.D.
