2600 South Michigan Blvd.  
Suite 303

CHICAGO / Illinois 60616

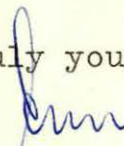

Dear Doctor Berry!

✓ Thank you very much for your kind invitation to the luncheon at the Americana Hotel on May 24, 1973, to which I can not respond, because I shall not be dispensable from my clinic at that time.

May I remind you, that I should justify myself the proofs of the coloured illustrations before the final printing, in order to guarantee an optimum reproduction. In correlation to this I would like to tell you, that I shall be absent from June 15th to the end of July.

In case that the clichés of the reproductions have not yet been prepared, it would be possible for me to demonstrate some of the findings with better reproductions, for meanwhile the optics have been improved. If you are interested, please give me notice at once.

Very truly yours

Dr. Herwath Lent
