TREASURER

DR. L. GREELY BROWN
173 MADISON AVENUE
ELIZABETH, N. J.

DEAR COLLEAGUE :

As President of the Association of Former Internes and Residents of Freedmen's Hospital, it becomes my duty to issue the "official call" for the Annual Meeting and Scientific Assembly of our Association at Freedmen's Hospital, Washington, D. C. The dates are Monday through Thursday, June 9-12, inclusive, 1952.

Those who have attended the Scientific sessions in recent years know that the caliber of our programs meet the highest and most exacting standards. Many nationally known authorities from leading medical centers of the country have appeared as guest lecturers. Of great interest also has been the report of research by the brilliant young current crop of internes and residents of Freedmen's as well as lectures by the Howard Medical faculty. Scientific and technical exhibits add to the general interest of the meeting.

This year, some of the nation's most outstanding medical celebrities from the Midwest Medical Center of Chicago and the Mayo Clinic will be our guest. I must not fail to mention that the plans for the annual "round-up" and picnic are already under way and are expected to be more delightful than ever. Several of the interne classes are planning reunions, and I personally would like to greet all of the internes of my day and especially those who have not attended recently to support the program of the administration of 1952.

Further details of the plans for the meeting and the scientific program will be sent to you by Dr. William A. Warfield, Executive Secretary, and Dr. J. B. Johnson, Chairman, Program Committee

Hoping to see all of you in Washington, I am

Yours fraternally and sincerely,

LEONIDAS H. BERRY,
President.
