Dr. Owen H. Wangensteen
University Hospital
Minneapolis, Minnesota

Dear Dr. Wangensteen:

As President of the Association of Former Internes and Residents of Freedmen's Hospital in Washington, D. C., I would like very much to have you appear on the Annual Scientific Assembly of this group to be held in Washington, D. C. June 9-12, inclusive. Several outstanding celebrities from Eastern and Mid-Western Medical Centers will participate. Among them are your friend, Dr. Isadore Snapper, and Dr. Charles W. Mayo.

I would like to suggest that if you can come, you talk on some subject such as indications of effective use of intubation in obstructions in the gastrointestinal tract, including a discussion of mineral balance, etc., in such cases. My idea is a talk along this line which would be of interest and of information to general practitioners and specialists in other fields, as well as surgery.

The Society will pay your expenses and a small honorarium. If this can be fitted into your program I would appreciate an early reply.

With kindest personal regards.

Yours very truly,

Leonidas H. Berry, M. D.
President
