 ^{Conf. med. commis}
- (Call Maurice Friedell)
 ask gentle young
- (C) Attempt to get Non-Discrimination Clauses in Hospital By-laws?
 - (D) Quota's for degrees.

Reassessment of our problems and our ^{Specific} Aims or Goals in terms of Human Relations in Medical Care:

Let's don't lose our focus on the forest - while we are pruning the trees

We should come up for air occasionally

Let's don't study the Negro to death

If I want a change from a Mexican diet, ^{in a while} ^{once} ~~there are~~

If no other reason than to realize that - ~~there are~~

While this is the worst problem there are other problems in the sphere of Human relations and that our ^{most} justifiable is in improvement of an over all Human relations situation.
