Dear Mrs Berry:

Lula finished her work at the Whittier Training school to-day instead of next Wednesday, as we had expected. She is therefore a graduate of Hampton as far as completion of work is concerned, although she will not get her diploma until she stands up with her class in May.

I am glad she lives so near that she can come back and enjoy the class day exercises. I congratulate you both upon Lula's successful completion of her work at Hampton. I hope as years go on she will strengthen and that her vision of life will broaden. It means a good deal to stamp a girl with the seal of Hampton, which we do when we put our diploma in her hands. I shall pray that Lula may be true to her trust and that as the years go on the school will have every reason to feel proud of this young girl going out to represent us and our ideals.

With best wishes,

Very truly yours,

Elizabeth Hyde
