Mr. Eugene Meyers, Registrar  
The Cook County Graduate School  
707 Wood Street  
Chicago, Illinois 60612

Dear Gene:

Several days ago Dr. Stiegman came to me voluntarily to say that he thinks Dr. Villa and I should officially give the September course in gastroscopy. In the past I have always given the lectures and slides for his course, as well as covering some days for the wet sessions. Dr. Villa and I can work this out quite satisfactorily. We will divide the wet sessions equally and I will furnish the slides and give the afternoon lectures. The course therefore should be listed as Berry and Villa. We are working toward having more cases for the September course. The situation, however, is getting worse because of the reorganization and the establishment of special specialty wards. I am confident that we can meet the issues.

Very truly yours,

Leonidas H. Berry, M.D.
