February 3, 1956

Dr. Leonidas Berry  
Co-ordinator of Narcotic Clinics  
Illinois Department of Public Health  
109 State House  
Springfield, Illinois

Re: Narcotics addiction

Dear Dr. Berry:

Please consider this letter as an expression of our interest in the problem of narcotics addiction, particularly as it is related to our inmate population and generally as it pertains to the community at large. In connection with our concern with the problem of drug addiction, we seek to integrate proper information regarding facilities for treatment and rehabilitation in our counselling of our inmates relative to their living in the extra-mural community. We will, therefore, appreciate receiving any printed matter or any other information which you may make available to us regarding the program of the narcotic clinic as conducted by the Department of Public Health.

Your cooperation in this matter will be greatly appreciated.

Sincerely,

*Ruth Biedermann*  
Ruth Biedermann  
Superintendent
