Dear Ben:

I have recently been in touch with Springfield. Dr. Gowen and I have been reviewing the factors involved in getting the county jail clinic started. The amount of money that we will have available during the next 16 months will depend largely on how well the two present clinics are able to stick to their budgets.

Dr. Gowen asked me to ascertain from you how your clinic expenses are running at the moment and whether it can go along at not more than \$2,000.00 per month during the next 16 months. If this can be done there should be available for the half time psychiatrist a fee based on \$5,000.00 a year.

I would appreciate your letting me have this by return mail. If your answers are in the affirmative we would be ready to employ the psychiatrist that you recommended beginning April 1st, if he can start at that time.

If you need to talk with me by telephone I can be reached in the late afternoons or if you leave a message I will return your call immediately.

With sincerest regards, I am

Yours very truly,

Leonidas
