Mr. Malachi Harney,
Executive Director of the
Narcotics Control Division
Illinois Department of Public Safety
Springfield, Illinois

Dear Mr. Harney:

Since the tour of your inspection officers a few months ago, we have had no correspondence regarding rehabilitation aspects of the narcotics problem.

Following my talk with you in Bethesda and your inspection team in Chicago, I had the feeling that soon or later you might request some definitive assistance from our present personnel in setting up a revised clinic program in compliance with the new Legislation. You may not have gotten to that point in your program as yet or you may be approaching the problem otherwise. At any rate, I again wish to state that our services are at your disposal and we stand ready to cooperate in any way possible toward diverting the results of our experiences in alignment with the new program of narcotic control.

Sincerest regards and best wishes.

Very truly yours,

Leonidas H. Berry, M.D.,
Coordinator, Narcotics Clinics Program
