Dear Ms. & Mrs. Berry

Our church organization has been instrumental and still is, in developing and educating young people for over a hundred years. Yes, even in a struggle, we have been able to meet the need for financial help. The request for such help has gone up over 45% this past year. We have exhausted our allotted budget and over some. As a result, we do have some emergencies that we must find a way to meet come January '83.

We have seven students who were caught in the budget cuts at their particular schools. They may have to discontinue their educational career if we are unable to help them. We believe that you would like to share in being a part of helping these young people stay in school.

On page 3 of the Newsletter enclosed, you will find a space to respond in the form of a contribution, donation or Christmas gift to this very needy cause. Your gift is tax deductible.

Thanking you kindly,

Bettye J. Allen
