Dear Lew and Kathy,

As usual, I enjoyed my stay with you in Washington and I appreciate your being "continual" host and hostess to your older brother.

The meetings which I attended were very interesting and rewarding. The fish which I brought back was cooked immediately by Em and we have enjoyed it two or three times since I returned -- it was quite delicious.

My 24-hour trip to Greenville, Mississippi Wednesday was very interesting, but I did not let any grass grow under my feet. I was in charge of Negro doctors during the entire stay -- it was quite enjoyable.

Love and best wishes from Em and me,

Sincerely,

Lee
