

Dr. Berry
+1 Copy manuscript

August 18, 1965

Dr. Earl Belle Smith
Chairman
✓ National Medical Association, Inc.
616-7 Empire Building
307 Liberty Avenue
Pittsburgh, Pa. 15222

Dear Earl:

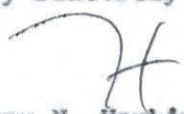

Attached please find a manuscript and accompanying material in connection with the paper entitled "The Surgical Treatment of Duodenal Ulcer: 1884 to 1965." This paper represents that which I gave before the National Medical Association Meeting last week and which I am submitting for consideration for publication in the Journal of the National Medical Association.

Because I thought he might be interested, I am sending Dr. Berry a copy of this address for his personal files, and thinking you might like to have a copy to refer to until the paper is printed, I am sending you a copy also for your personal use.

Again, let me say to you how much I enjoyed the meeting and I especially appreciated the many courtesies that you and your wife offered me while I was there.

Again, with best regards, I am

Very sincerely yours,

Henry N. Harkins, M.D.
Professor of Surgery
