September 30, 1965

Dr. Leonidas H. Berry
412 East 47th Street
Chicago, Illinois 60653

Dear Dr. Berry:

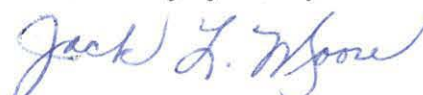

This is my follow-up letter that I wrote of on September 23. I trust that by now you have had a chance to browse through our constitution. Have you come up with any new suggestions?

Since our organization is composed of students, interns, and residents, the executive committee is interested in establishing a chapter in Chicago. We would like to have a host chapter for next years convention. We feel that with members in a city where the convention will be held we may be able to plan a meeting of high caliber.

I would like for you to contact some of the interns, residents and students in the Chicago area and interest them in our organization. I will send you some material which may help. I am sure that Albert Clements, and Charles West of Cook County Hospital would be interested.

Well sir, all for now. I realize that I have asked for a lot of help. Should you need any further assistance from me I will be only too glad to aid you.

Sincerely yours,

Jack L. Moore,
Executive Secretary, SNMA

P.S. Enjoyed reading about you and the NMA in the Medical World News. Our views are almost like yours.
