Chicago, Illinois 60653

Dear Dr. Berry:

Recently the Gateway and the Pennsylvania Medical Groups endorsed me as a candidate for President-Elect of the National Medical Association. In this regard, I request your support and dissemination of this information to our friends and interested personnel in your area.

We have a specific program to supplement the existing program which may be essential for the continued growth of our organization. Presently, as you know, there are new problems for our association and we seek the opportunity to express our ideas. However, I need your cooperation and the support of others to carry out these objectives.

Sincerely yours,

Earl B. Smith
