Dear Leonidas -

Just before I left home to attend a meeting of the Board of Governors of the American College of Physicians here in Kansas City, I dictated a note to you. En route, it came to me that I had neglected to include something I chastise myself for failing to do a long time back, even though it was much in my mind.

What I had intended to include was a belated expression of my pride and joy in your receipt of the Schindler Award. Surely, it was never more deserved and I rejoice with you.

Best wishes.

Cordially,
Joel
