Dear Prof. L. H. Berry:

Thank you very much for your courteous letter of March 12 regarding Dr. Mitaniyama's return to Japan.

I am glad to know from your letter that he was well accepted by you and your staff during his stay with you. Although I feel sorry that he had to shorten his schedule by the end of March, I am sure that he learned a lot from the valuable and excellent opportunity he had in working with you. His stay, would, no doubt, promote our good and further relationship with your staff and all of ours.

Once again, I wish to express my hearty appreciation for the profitable experience and kind hospitalities you and your staff extended to Dr. Mitaniyama. I further hope to be able to send him again if another opportunity may arise.

Sincerely yours,

TOKYO MEDICAL COLLEGE HOSPITAL
