

Bergin

October 26, 1959

Dr W. N. Bergin
P. O. Box 606
Hilo, Hawaii

Dear Dr Bergin:

I received your letter last Spring at a very busy time and unfortunately with an over-whelming program, your letter was misplaced. Meanwhile I moved my residence and that further complicated matters. I have just discovered your letter and address, and I hasten belatedly to answer it.

I received a copy of the Journal of the Hawaii Medical Society. I read Dr Okazaki's article on Lipoproteins and enjoyed it. Thanks for having it sent. I will write him concerning the same. I have often thought about you and the others from Hawaii who have taken my Courses through the years. I regret the considerable lapse of time since receiving the sad news about Dr Kutsunai. I hesitate to write him at this time since much time has passed. I was very sorry to get the news.

About eighteen months ago I was invited by the Foreign Fellowships Committee to register for Foreign Service as a visiting Professor. Since then I have been invited by a Professor of Medicine at the University of Tokyo to give a short Course in Gastroscopy and Gastroenterology in Tokyo. If final arrangements can be made I may be taking the trip for a two months period beginning the first of March, 1960. If this is the case, my wife and I would want to stop in Hawaii for a short visit. It would be very nice if I could see you and some of the other doctors there whom I have met from time to time either in a professional setting or otherwise.

Again let me say how nice it was to receive your long newsy letter and to learn that you and your family are doing well.

With kindest personal regards, I am

Very truly yours,

Leonidas H. Berry, M. D.
