Leonidas H. Berry, M.D.  
2600 S. Michigan Boulevard  
Suite 303  
Chicago, Illinois 60616

Dear Leonidas:

I have delayed answering your recent letter in the hope that I could locate some of the information you requested. Unfortunately, Hurricane Betsy destroyed not only my old records on the Endoscopic Society but most of my other much valued records.

I was President of the Society in 1955. You are correct in that the meeting was in Chicago, at which time you so efficiently arranged the Chicago part of the program.

It was that year that the new Endoscopic Bulletin was organized and Dr. Frank McGlone of Denver, was one of the prime movers in getting the new Bulletin going. I would suggest that you write him for I am sure all the data you have asked would be in the files of the present journal office.

I regret very much that I have been unable to be of more help to you but I feel sure that if you follow through as I suggest, you will obtain the information.

With kindest personal regards, I am

Sincerely yours,

*Donovan C. Browne*  
Donovan C. Browne, M.D.
