Dear Mrs. Davis:

Thank you very much for your recent telephone call. I have just completed a medical textbook of 650 pages in which I wrote 15 chapters with 20 chapters supplied by International Contributors. This has kept me very busy. I appreciate very much your interest in the Health Commission. I am depending upon you heavily as we move toward the next General Conference. I will be in touch with you at a later date after I return from a World Congress where I am on program in my special medical field to be held October in Mexico city.

With sincerest regards I am,

Yours very truly,

Leonidas H. Berry, M.D.
