Dear Dr. Berry:

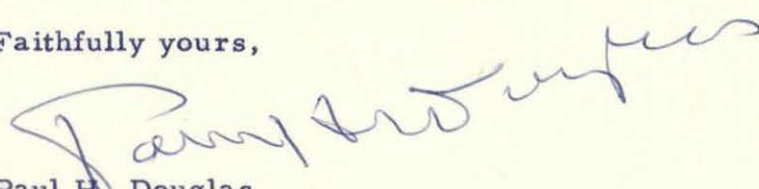

Many thanks for your letter. I certainly appreciate your support and your willingness to pitch in and help with the organization of a physicians' committee.

As a matter of fact, we have not yet set up such a group. I think we were rather afraid we wouldn't draw many doctors because of medicare and various other clashes I have had with the A. M. A.

I shall send your letter along to Jack Gleason who is Chairman of the Citizens' Committee and ask that he get in touch with you about this.

With best wishes,

Faithfully yours,

Paul H. Douglas
