Houston, Texas

Dear Doctor Pemberton:

It was certainly nice to see you again after a long time. You are certainly setting the pace for the younger men. I certainly appreciated your courtesies and your work, as I saw and heard about it there in Houston -- it is simply wonderful. My wife and I appreciated all that was done for us and we would like to come back again very soon, if it were possible and feasible.

I particularly would like to know if the Tribune or Informer printed something from the press conference. Again let me thank you for all of your courtesies. My very best regards to you and other friends in Houston.

Sincerely,

Leonidas H. Berry, M.D.
