Senator Abraham Ribicoff  
Senate Office Building  
Washington, D.C.

Dear Senator Ribicoff:

I am a member of the National Advisory Council on Regional Medical Programs against heart disease, cancer and stroke. I have been very much interested in plans and provisions in various proposals to improve our cities with reference to future health facilities.

I have heard of your proposals for rebuilding cities, and I would be very much interested in knowing what do you visualize in terms of specific programs for health care in the reconstructed big cities. I think your proposals sound very good and might very well cut in on the time table of some of our space programs, if necessary.

I would very much appreciate a short answer to the question presented at your earliest convenience.  
I am

Very truly yours,

Leonidas H. Berry, M.D.

LHB/ld
