6400 South Kedzie Avenue
Chicago 29, Illinois

Dear Fred,

Your letter of the 18th is received. You have made an unimportant diagnostic error. I am not a Fellow of The American Gastroenterological Association. I played the role of a test case for ten years, and until I inform my friends that I wouldn't stand still for any further experimentation. Several of my students are members.

I suggest that you do adequate inquiring before letters are sent to this organization.

Was nice to see you recently and also your madam.

Sincerest regards and best wishes,

Leonidas

P.S. I would be glad to sponsor you for membership in the Endoscopic Society and the College of Gastroenterology.
