Dr. and Mrs. Henri Thaly  
#3 Place Edouard Renard  
Paris XII, FRANCE

Dear Henri and Janine:

Emma and I cannot find adequate words to describe our joy and delight for having seen you again. Your hospitality and entertainment in your home and at the fine restaurant under the stars will long be remembered. Your English and my French would never win a first prize but I think we got along beautifully in understanding each other. We were glad to see your fine children growing up and to learn of their ambitions.

We look forward to seeing you in America next year and hope we will hear from you occasionally before that time. We have French-speaking friends from Haiti in the medical profession and otherwise, who would be very happy to meet you. There are, of course, many Americans who would also be very happy to meet you as our friends. Don't forget to let us hear from you once in a while, and with very best regards to you and many thanks for your hospitality; we remain

Very sincerely yours,

Emma and Leonidas
