Dr. Leonidas H. Berry
412 E. 47th Street No. 26
Chicago, Illinois 60653

Dear Dr. Berry:

Thank you for your letter of March 14th concerning the Advisory Committee for the regional programs in heart disease, cancer and stroke. Our Advisory Committee as originally constituted before the need for such was defined in the act included a very fine negro physician, a member of our Board of Health in Cincinnati, and presumably a member of the National Medical Association Incorporated. His name is Dr. Paul Hough. I will, nevertheless, bring your letter to the attention of the Advisory Committee at the time of its next meeting.

Sincerely,

Clifford G. Grulee, Jr., M.D.
Dean
