Dear Dr. Berry,

We are too busy preparing for home that I didn't get the chance to write you sooner. We are leaving Boston on the 28th of March and we will probably be in Chicago by April 1st or earlier depending on how I would drive. It is too bad you will just be through with the course by that time. Anyway, I am still hoping that I would have the opportunity to pass the scope once more before we leave. We will probably stay in Chicago for about a week. The meeting (AGA) for this year will be on the 22 or 27th of April yet so I presume you will be there in Chicago when we come.

Dr. Nugent and I received the letter from the registrar of the postgraduate school telling us of the dates of the gastroscopy courses for the year and I believe there are several of the boys interested and might take it sometime this year.

My wife and I are hoping you are in the best of health and we are looking forward to seeing you.

Very sincerely,

Sol
Sol Z. Alvarez, M.D.
