

November 4, 1970

Dr. John Hubbard
Secretary
National Board of Medical Examiners
133 South 36th Street
Philadelphia, Pennsylvania 19104

Dear Dr. Hubbard:

I am a diplomat of the National Board of Medical Examiners, holding certificate number 2580, dated July 17, 1931.

I would like to know -- (1) What states may a diplomat practice in at the present time under the provisions of the certificate?
(2) What additional procedures, if any, are required for practice in California, Arizona, and Florida; the Bahamas, Canada, South America and other Caribbean or foreign countries and are there age limitations?

Since the above date, I have become a diplomat of the American Board of Internal Medicine and Gastroenterology and Fellow of the American College of Physicians.

Very truly yours,

Leonidas H. Berry, M.D.
