Mr. Paul W. Bachman, Director  
Case Detection Service  
Philadelphia-Montgomery Tuberculosis  
and Health Association  
311 S. Juniper Street  
Philadelphia, Pennsylvania 19107

Dear Mr. Bachman:

Again let me express my appreciation for the splendid cooperation given by you and your staff in making the mobile unit chest survey during the General Conference of the A.M.E. Church.

We have written to all of the people indicated in your letter and we hope that there has been some follow through. We received the photograph also and we certainly appreciate it very much.

I would be interested at this time to get the total figures on those who went through the mobile unit, and any additional statistics which you may have because I wish to publish an article in our church paper regarding the same.

Again, many thanks to you for your cooperation. I remain,

Sincerely yours,

Leonidas H. Berry, M.D.  
Medical Director
