Director of Anti-Poverty
Health Center Program
University of Southern California
Los Angeles, California

Dear Sir:

I am very much interested in the outline of the program which, I understand, has been set up for the Watts slum area and Los Angeles. I am a member of the National Advisory Council for the division of regional medical programs against heart disease, cancer and stroke of the National Institutes of Health.

I am interested in the possible coordination of relationships between your program and similar centers around the country and the activities of the division of regional medical programs against heart disease, cancer and stroke. I particularly would appreciate your answering the following questions:

- 1) How do you get your patients?
- 2) How do you get the doctors who work in your clinics?
- 3) What is the relationship of these doctors to the University Hospital, if any?
- 4) Is a means test applied?

I would appreciate this information at your very earliest convenience. Thanking you for your cooperation, I am

Very truly yours,

Leonidas H. Berry, M.D.
