F. A. C. P.
Director, Connectional Health
Commission, AME Church
412 East 47th Street
Chicago, Illinois 53

Dear Dr. Berry:

I am pleased to acknowledge your interesting letter related to the development of your report for the approaching General Conference of the African Methodist Episcopal Church to be held in Philadelphia, Pennsylvania.

We can always rely upon you to bring a good record of the activities and an excellent projection of potential service in the area of health and related fields of endeavor.

It is my intention to attend the meeting in Tulsa, Oklahoma next week, at which time, I shall be pleased to confer with you.

Bishop Primm mentioned the possibility of the hospital working with the commission in providing first aid services to the delegates and the public attending the General Conference. He thought of using nurses, who will attend as representatives of the Fifth Episcopal District. I do not know the composition of the delegates from our district in order to determine the number of nurses who will attend. We hope to have a booth for the hospital program.

A contact is being made for a recent black and white photo of the hospital structure.

Yours sincerely,

Eugene H. Kelly
