Chicago, Ill.

Dear Dr. Berry:

As you know, the Board of Trustees of the American College of Gastroenterology, at its October meeting in Chicago, appointed me Chairman, and you a member, of the Committee on Hospital Relationships. The chief function of this committee is to help in the establishment of Residencies and Fellowships in Gastroenterology in as many of the large hospitals in this country as is possible.

In order that I may be able to make a report on existing available positions of this type, I am asking you to furnish me with information relative thereto, particularly in your locality. Will you therefore let me know as soon as possible of any available Residencies and Fellowships in Gastroenterology in your city or state, and also if any are contemplated in the near future.

Kindest personal regards.

Sincerely yours,

Louis L. Perkel
