Executive Secretary  
DANIEL WEISS, B.S., M.A.

OFFICIAL PUBLICATION  
THE AMERICAN JOURNAL  
OF GASTROENTEROLOGY

30 January 1956

Dr. Leonidas H. Berry  
412 E. 47th St.  
Chicago 15, Ill.

Dear Dr. Berry:

I am in receipt of your letter of 26 January addressed to Dr. Heineken, as well as your letter of 29 December forwarding the correct copy of the paper you presented in Chicago.

Please accept my apologies for the delay in acknowledging its receipt, but the truth is that we are so swamped that we have all we can do to keep our heads above water.

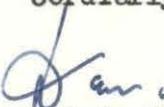

Another reason for the delay is that I was checking on the cost of reproducing the gastroscopic drawings in color.

I am afraid that color reproductions would be prohibitive, since the cost of plates alone without running would be well over \$600.00. Under the circumstances, I think we had best stick to black and white.

I am returning herewith the copy of the paper which was submitted at the time of the meeting and which you asked to have returned.

Again please accept my sincere apologies for this delay and with kindest regards, I am

Cordially yours,

  
DANIEL WEISS  
Executive Secretary
