Mr. Daniel Weiss
Executive Director
The American College of Gastroenterology
33 West 60th Street
New York, New York 10023

Dear Dan,

It has been some time since I have written to directly or talked to you. I have been very much involved having served as President-elect then President and active Trustee Board member with the National Medical Association. I found myself involved in travel to East and West Africa and to many parts of Asia on a lecture-demonstration tour in gastroenterology sponsored by the Cultural Affairs Division of the Department of State during the last two years. While these were rapid plane trips requiring only a month for each continent. Africa in 1965. Asia 1966, the whole program has been quite time-consuming and has prevented me from being as active as I have in previous years with the College. However, my term of office as President is over and I plan to be more active with the College. I believe that it was during January that I became a life member of the Association and very recently without it having occurred to me I received congratulations from a Doctor Barowsky and Doctor Sterling on my twenty-fifth anniversary as a member. I plan attending the meeting in California next October and if I am not too late I would like to submit a subject for a paper if not before I should hope to see you at that time. Sincerest regards and best wishes.

Leonidas
