## **Reflection Activity**

## Instructions

You and your group have now finished producing your PSA for other students. Congratulations! To reflect on your work, answer the questions below:

1. What do you think other students will learn from your PSA?

2. After this activity, what is one thing you know to do in the event of a disaster to protect your health?

3. Do you think a PSA is an effective way to share information about protecting your health during a disaster? Why or why not?

4. What information resource(s) did you find most helpful for your PSA and why?
