

Physician Poster Assessment

1. What are some key ideas you have gained by working on your own physician poster project?
2. Viewing others' physician posters, which information do you find most interesting? Explain your responses.
3. What surprised you most about women in the medical field in the past or present? Provide examples based on the posters.
4. Which poster was your favorite and why?
5. How can the information you've learned during your research, and from the physician posters, help you in the future?
6. What are some additional questions you have about careers in the health profession, or about health information? Where and how can you find answers to your questions?
