The National Library of Medicine is pleased to present our latest traveling exhibition, ***For All The People: A Century of Citizen Action in Health Care Reform***. Health care reform has been a contentious political issue in the United States for more than a hundred years. From the beginning of the 20th century to today, citizens have made their voices heard in these debates. ***For All the People*** tells the lesser-known story of how movements of ordinary people helped shape the changing American health care system.

The six-banner traveling exhibition highlights images from over one hundred years of citizen action for health care reform.

***For All The People: A Century of Citizen Action in Health Care Reform*** began traveling around the United States in December 2015.
